

Maywood Campus

November 2023

The mission of the South Bergen Jointure Commission is to unlock the potential of every student. As a leading educational provider, we will focus on the development of each student's social, emotional, and academic needs. By fostering an environment that is supportive and challenging, we will empower students to maximize their independence and potential in becoming fulfilled and productive members of their community.

Trip to Liberty Science Center

On November 17, 2023, six classes from the SBJC Maywood Campus went on a field trip to the Liberty Science Center. The students enjoyed exploring the various exhibits and did very well. Below is feedback from some of the students:

My visit was good! I had lots of fun. It was the best place ever! My favorite place had to be the sideway building exhibit. You could pretend that you're falling or holding on to something. Finally, THE VOLCANO experience was amazing because it exploded! I hope I can go back there again!

Written by Lucas

My visit to the Liberty Science Center was a lot of fun. One exhibit I enjoyed was the touch tunnel. One thing I enjoyed about the touch tunnel was the darkness. It was really cool. A second reason is I enjoyed crawling around the touch tunnel to find the exit. I was happy that I was able to find the exit. I cannot wait to go back there again.

My visit to the liberty science center was good. I had a lot of fun at the liberty science center. My favorite part was the great train set. My first reason why I like the great train set is because I like trains and it reminds me of the 1980s train set. My second reason is that it had a lot of buildings and tiny people in the train and two trains going around and I really liked that. My last reason why I liked it is because it was very calming there and the train set looked cool. I would really like to go back for a third time with the school.

CBI at SBJC Maywood

Community Based Instruction (CBI) has allowed our students to integrate into the community by participating in activities such as the Sensory program at the Maywood Library. Our relationship with

the Maywood Library inspired them to create a time where sensory needs could be met for all visitors including our students. We recently started walking to 7 Eleven, this community outing has given our students the opportunity to experience real life situations. During our walks to 7-Eleven, the students learn to cross the street, interact with people in the community, make choices, and make purchases using their money. CBI is teaching our students valuable life skills that will help them continue to grow.

~Ms. Oliveras and Ms. Lachcik

Artist Spotlight

Art by Gabriella

Gabriella loves to draw! She likes to draw objects from all angles. It is so fun to watch her achieve her finished pieces. She likes standing and drawing on a smart board. She works on her art at a steady pace but always knows when it is done. The art chosen for the month of November is a drawing of a glass vase created with multicolored Sharpie markers on vellum paper.

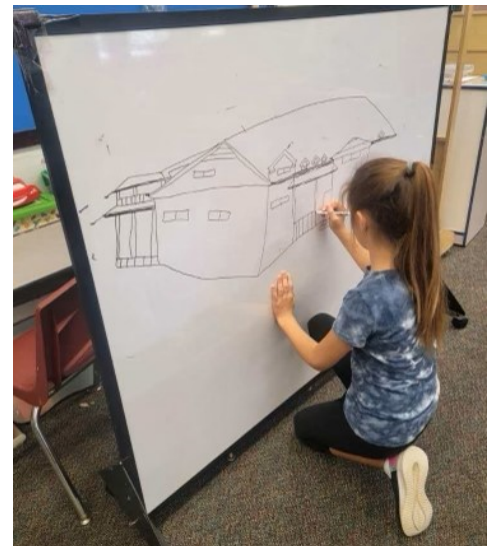

~ Roberta Bierman, Art Teacher

Student Spotlight

Meet Haley

We're proud to announce Haley for our Student Spotlight of November 2023. She has been doing amazing with her work tasks and has shown great progress with her programs. Great job Haley!
